A new era in business relationships is bringing suppliers and customers BACK together. Serving the industry for over 100 years, new beginnings are still our specialty.

We are a proud member of the following associations:
DuraShield® is... Dependable
The perfect combination of strength and durability. After years of research and development and literally hundreds of test compounds, in 1998 American Biltrite introduced an innovative formula to pulverize the competition with superior tear and abrasion resistance for the most severe mining and aggregate conditions.

DuraShield® is... Resistant
A completely unique concept with outstanding wear, tear, corrosion, and abrasion resistance. DuraShield® is born into the American Biltrite family of premium rubber products and quickly becomes the pinnacle of our product offering.

DuraShield® is... Diversity
DuraShield® is offered in several durometers, colors, and sizes. The unique optional bonding layer will ease installation by improving adhesion to metal and other surfaces. The fabric backed version incorporates one ply of nylon fabric to provide increased strength where mechanical fastening is required.

DuraShield® is... Protection
Effectively defending surfaces to increase service life of vital equipment. DuraShield® reduces production losses and premature investment of expensive replacement equipment.

DuraShield® is... Endurance
It reduces noise and impact for a better and safer work environment. Longer life, less down time, preserve your $$$ Guard your investments with DuraShield®.

DuraShield® is... Versatile
Superior performance that continues to transcend the competition with unrivaled value. Here are some typical applications where DuraShield® has proven the POWER OF RED and the DOMINANCE OF ORANGE:
- Linings
- Chutes
- Hoppers
- Cyclones
- Pipes
- Tanks
- Truck bins/boxes
- Silos
- Skirting
- Pulley lagging
- Shaker screens
- Sand blasting curtains
- Squeegees

Red DuraShield® delivers optimum performance in applications where tear resistance is required. Sweeping the competition with tear values that are off the charts, this is the unique compound that severed the challenger's monopoly on the market.

Orange DuraShield® A+ covers all bases with competition crushing abrasion resistance and heavyweight tensile strength. It will take a beating and give opponents a pounding.

American Biltrite is... Quality
Both ISO 9001 and ISO 14001 certified, American Biltrite’s quality systems are second to none. With a reputation in the market that is nothing short of excellence, American Biltrite continues to be the source for first-rate products with value.

DuraShield® is... Domestic
100% North American manufactured with stocking locations throughout the USA and Canada. You can count on DuraShield® to ship fast and reduce down time during routine and emergency maintenance. Fast, dependable, and strong.
